Paint and Trademad Office	····					

Continuation of 2. NOTE: Claim 23 is amended to recite a frontal door "foldable from a single side of the receiving cavity." Such a limitation has not been considered previously, and it raises a new issue that would require further search and/or consideration.

Continuation of 3. Applicant's reply has overcome the following rejection(s): Claim 30 is amended to include allowable subject matter discussed in the final office action. Claim 30 is now allowable.

Continuation of 5. does NOT place the application in condition for allowance because: It is argued that claims 8 and 9 are distinguishable from Kim'et al reference because the reference does not disclose the resilience door member covering a pair of receiving cavities. However, the examiner respectfully points out that the claims recite "at least one folding door... to cover frontal openings of a pair of receiving cavities." Fig. 8 of Kim et al reference shows total of 4 folding door elements (2 in each cavity) covering a pair of receiving cavities. Therefore, the reference still reads on claim 8 and 9 as they are recited in the present application.
